To Whom It May Concern,

I am pleased to provide this letter of reference for Mr. Sonit Kalia, Founder and Managing Director of Commodity Link Enterprises Ltd. Over a critical two-year period, Mr. Kalia and his team played a key role in supporting the operations of Horizon FracTech Solutions Inc., a leading shale oil and gas services company based in Houston, Texas.

During a time of significant global supply constraints, particularly in sourcing high-viscosity guar gum essential for hydraulic fracturing, Mr. Kalia leveraged his deep-rooted relationships with manufacturers in India to secure a reliable and consistent supply chain. His ability to identify, negotiate, and contract with one of India’s highest-quality guar gum manufacturers was instrumental in maintaining the operational continuity of our fracking operations.

What set Mr. Kalia apart was not just his technical knowledge of commodity markets, but also his integrity, follow-through, and professionalism. Over the course of two years, Commodity Link Enterprises consistently delivered volume container shipments of premium-grade guar gum that met our rigorous quality and performance standards.

His strategic foresight, dedication, and hands-on management contributed significantly to our success in a highly competitive and demanding market. I would not hesitate to work with Mr. Kalia again and strongly recommend him as a trusted partner in international sourcing and trade facilitation.

Sincerely,

Mark D. Harrison
Director of Supply Chain Operations
